OUTDOORSMAN TOOLKIT

# Two things to try at camp

Agree on a safe area; children stay with a supervising adult. Observe from paths or your pitch. Leave objects in place and give wildlife space.

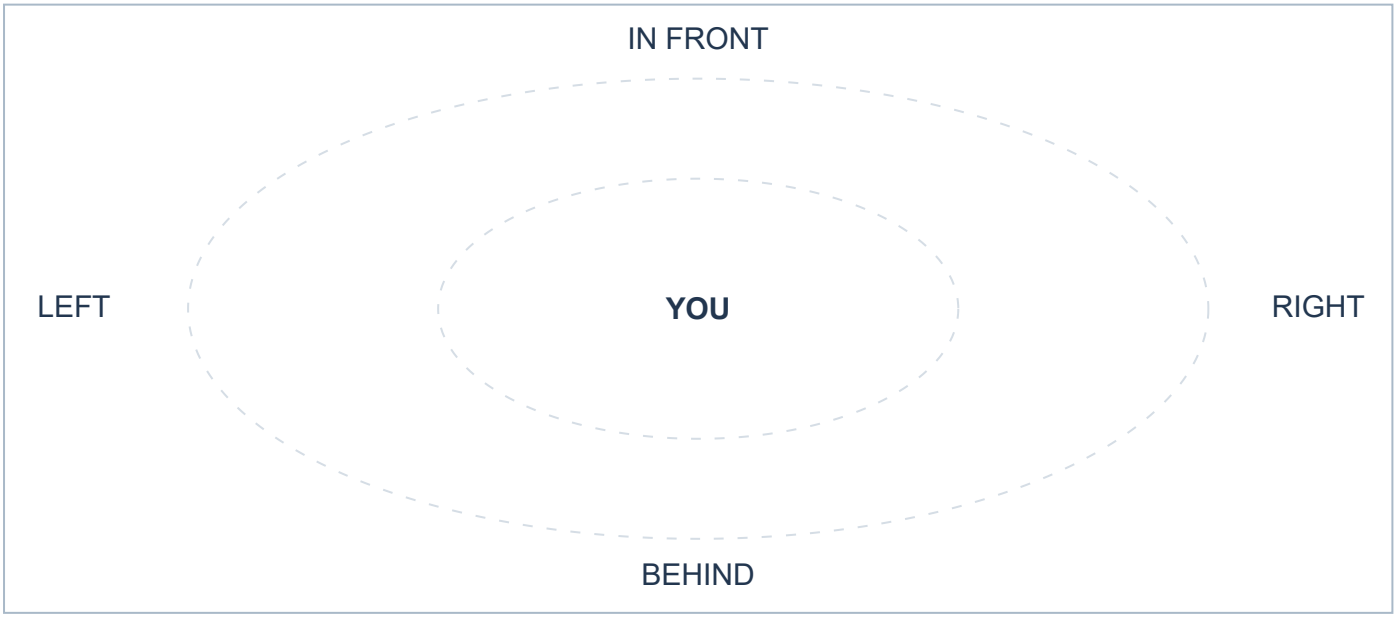

## 1. Find any five

Tick, sketch or describe what you notice. Skip any prompt that would take you outside the agreed area or too close to an animal.

| | | |
|---|---|---|
| ☐ A branching shape | ☐ A curved line | ☐ A repeating pattern |
| ☐ Two shades of green | ☐ A moving shadow | ☐ A cloud shape |
| ☐ Something rustling | ☐ A small plant seen from the path | ☐ An animal seen from a distance |

## 2. Draw a sound map

Stay seated, facing the same way. Put sounds around YOU by direction; nearer sounds go nearer the center. Labels, symbols and question marks all work.

An observation map, not a navigation map. What did you notice that you had missed before?
